

# LoB-01 None but Heroes (27 Apr 12)

- 1) There are two 82 Penn-a (3/3/6) regiments. One of them should be 82 Penn-b.
- 2) The 23 Ga Regiment (Rain/Hill) should have a strength of 5, not 2, making it a R5A. Set them up with any unit of their brigade strength of 3 for scenario 5.4. In other scenarios—where they do not set up at all—the unit has been destroyed in the morning fighting and is dead.
- 3) The 14 NC Regiment (Adrsn/Hill) should have a strength of 9, not 6, making it a M9A. Also, in the set up for scenario 5.4, the 14 NC should have a strength of 5, not 2, remaining.
- 4) Ignore the Palmetto Lgn set up in hex B25.28 in scenario 4.4. The unit is also listed, correctly, as setting up in B25.26.
- 5) The 1 Minn (1/2/2) should be R9A, not M9A.
- 6) Delete the 18 Maine in 1/1/5. Ignore the 18 Maine in all set ups.
- 7) In scenario 4.2, the hill referred to for off-map Union artillery fires is A23.11, not A27.11. Note that the off-map batteries cannot obtain a Rear Facing Target shift.
- 8) In the Sunken Road scenario, Pierson (arty leader) should set up with his HQ in B23.33.
