

1999 Repl Counters

This year I was able to fill in a lot of the little niggling things that have come up over the years (things like incorrect state outlines and commanders with the odd wrong vowel in their names).

While most of these are explained in the enclosed all-game errata listing, some need a little more.

GD*41: This mob of counters fixes the "t" and "w" notation issues from the counterset...now "t" means tracked and "w" means wheeled, just like you thought they should!

Raging Storm: Other than German Barrage markers that say both Good and Bad, the right MG unit is corrected (as opposed to the one I did last year that was from the wrong company).

Hube's Pocket: These are add-on units to add to the existing OOB, giving the Germans their organic AT units.

Lodz-1914: These are for the MiH game. I'm not sure what they correct, see the MiH errata if you have the game to know what to do with them.

Send in your ideas for next year's sheet...I have a bunch of your ideas on file, but I always want to have more selections to choose from in case the ones I have are impractical.

1999 Errata Mailing

The errata included in this mailing covers everything for all games that has come up since Dec 1994. The older material has been mailed in past years and is available at the web site if you need it.

No Counters included?

The counters were included in this mailing for all OPS subbers and those who ordered from us (or at least sent in cards) in 1999. Printed numbers are limited, so we will ship all we have now, and will do another printing of counters before next summer to fill out the rest.

If you fall into none of the above categories, but want the sheet, they are available separately for \$3.

Drive on Paris

Folded into this mailing (along with everything else) is the Drive on Paris pre-pub. I hope you find it and order one...I had a great time with this game and don't want anyone to miss out!

Christmas Sale!!!

This year's sale is focused on thinning the herd of those 1995 games that are still in abundant (read: too much) stock.

The five games on sale are:

- In their Quiet Fields II
- April's Harvest
- Black Wednesday
- Leros
- Marengo

Each is on sale for half regular retail price. No other discounts apply to these five, nor do you have to buy anything else to get the sale price.

These games all have inventory amounts over 2,000 and are the remainders of the last 5,000 print runs. I'd like to cut their inventory by half and I hope you'll be able to take advantage of this sale to help...I'm told they make great stocking stuffers!

Sale runs from 1 Nov 99 to 31 Jan 00.

All the best and Happy Holidays from all of us at The Gamers!
